

# SCOPE CAMERA

## Technical Specifications

# UNSURPASSED INSPECTION CONFIDENCE

The perfect solution for drop camera inspections that require precise, reliable data and market leading image quality.

The Scope HD PTZ drop camera system offers class leading quality for visual inspections. With a diameter of only 89mm it is suitable for a variety of pipes.

Utilising individually controlled variable intensity LED's to ensure a clear picture regardless of the environments natural lighting situation, the Scope Camera is the ideal tool for low-visibility, confined space environments that require regular maintenance or inspection.

## FEATURES SEAMLESS INTEGRATION

Paired with the Juicebox Controller, the Scope Camera brings an ease of use to complex inspections providing easy-to-use controllers and a large, high-quality display. With a focus on user-friendly UX/UI, the Scope Camera system makes complex inspections fast and effective.

## INDUSTRIES

- Maritime
- Utilities (Sewer / Water)
- Construction

## KEY APPLICATIONS

- Elevator Shafts
- Subsea
- Mine Shafts
- Bore Holes
- Below ground tanks

## JuiceBox Controller

Easily portable, this best-in-industry solution seamlessly connects and operates the Scope Camera and includes a 15 or 30m cable.

# UNSURPASSED INSPECTION QUALITY
